Work Experience

Frontend Developer

Kenmark ITAN Solutions

Jan 2024 – Present

- **Games Booking Engine (Smaaash)**: Enhanced user experience with **Framer Motion animations**, reducing load time by **25%** and ensuring seamless UI/API integration.
- **Music Distribution Platform (MELO)**: Led a team of 3 to develop a platform using **Next.js**, **Bootstrap**, and **Formik**, improving page load speed by **30%** with **Framer Motion** animations to enhance user retention.
- **Pharma E-commerce Website (Omarun Pharma)**: Streamlined workflows by introducing **ShadCN** components and integrating APIs, reducing development time by **20%** and improving responsiveness with **Tailwind CSS**.
- **Petrol Pump Dashboard (Vikram Auto Services)**: Designed a fuel tracking dashboard, improving operational efficiency by **15%** with real-time API integration and version control through **Git**, collaborating with a team of 3.
- **Company Website Redesign (Kenmark ITan Solutions)**: Spearheaded the redesign using **Framer Motion**, **ShadCN**, and **Next.js**, achieving a **40% increase** in user engagement with innovative, creative designs.

WordPress Developer (Freelance/Part-Time)

Obox Tech

- For **Inteledyne**, I redesigned their website using **WordPress** and the **Elementor** plugin. The project involved creating a responsive and visually engaging layout, all without relying on Figma mockups, showcasing my creativity and adaptability.
- For **Dr. Cindy**, I revamped her professional portfolio website using **WP Bakery** in **WordPress**. The redesign improved the overall design and functionality, with additional work on forms to enhance **user experience**.

Personal Projects

School Management System

A web application for managing teacher data with full CRUD operations. Features a table view and form-based input.

Technologies: React.js, Node.js, Express.js, MongoDB, Bootstrap

[GitHub Repository](#)

Weather Application

A responsive app providing real-time weather updates for any city with a seamless user experience.

Technologies: React.js

[GitHub Repository](#)

Education

- Completed **Web Development** program at Excel Technical Institute from July 2023 to December 2023.
